

Thames-Coromandel District Council and Hauraki District Council

Mangrove Management Bill 2017

The Thames-Coromandel and Hauraki District Councils herewith set out the promotion of the TCDC and HDC Mangrove Management Bill 2017.

The object of the Bill is to allow each council to either individually or collaboratively prepare a draft mangrove management plan in relation to the coastal area of its district, to achieve and maintain acceptable levels of mangrove vegetation, in order to restore, protect, or enhance the amenity values and/or ecosystems of the coastal area. In doing so, the councils are not required to comply with any other enactment that would otherwise regulate or apply to mangrove management activities.

The draft plan is approved through the special consultative procedure under section 83 of the Local Government Act 2002.
